```sql
-- Q1.-> Using condition in where clause

select uniform.ucode, uname, ucolor, size, price
from uniform, cost
where uniform.Ucode = cost.Ucode;

-- b) Explicit use of JOIN clause

select uniform.ucode, uname, ucolor, size, price
from uniform
join cost
on uniform.ucode = cost.ucode;

-- c) Explicit use of NATURAL JOIN clause

select uniform.ucode, uname, ucolor, size, price
from uniform
natural join cost;
```
